

## Practical 9

Problem Statement- Create a Google Form Quiz with the following requirements:

- a) Convert the form into a Quiz mode with automatic grading.
- b) Add 5 MCQ questions, each carrying 2 marks.
- c) Add 1 short answer question that requires manual evaluation.
- d) Turn ON the setting:
  - a. *Limit to 1 response*
  - b. *Shuffle question order*
  - c. *Release marks after manual review*
- e) Add a timer add-on (like form presenter) and set up a 10-minute time limit.

Finally, send the quiz link and view the response

The screenshot shows a Google Form titled "Digital Literacy & Cybersecurity Quiz". The form includes a "Form description" section, an "Email" field with a red asterisk, and a "Valid email address" label. Below the email field, it states "This form is collecting email addresses." with a link to "Change settings". The form contains two multiple-choice questions. The first question is "Which of the following is a primary indicator of a phishing email? \*" with four options: "A professional greeting", "A sense of extreme urgency or threats", "Correct spelling and grammar", and "A link to a well-known official website". The second question is "What does '2FA' stand for in digital security? \*" with four options: "Two-Factor Authentication", "Twice-Functional Access", "Technical File Attachment", and "Total Filtered Application".
